Mastery Test

Key Code: K2FN53AA

Expiration Date: 06/06/2011 (EST)

You are about to begin the Mastery Test. Answer each question carefully. You will be able to review/change your answers before you submit the exam.

The exam consists of a series of questions—two questions per page for each item. The answer for each question will be a fixed rating (i.e., a value from 1 to 7). For each question, select the best answer from the choices. There is no time limit to answer a given question. Some questions include additional information needed to answer them, such as the scenarios. This information will be provided along with the question.

The online credentialing system allows you to finish the exam later (up to 5 days after starting the exam, including weekends). You can click the Later button to suspend the exam, which must be finished within 5 days.

If you decide to discontinue the exam, click the Abort button. If you abort the exam, you will not be allowed to use the same key code to finish the exam later.

Please do not use the Back button on your browser during the test. Instead, use the Next and Previous buttons to navigate the questions.

VERY IMPORTANT: To begin the exam, click the Continue button. Doing so generates the exam and begins the 5-day time frame for completing the exam. (Remember that the time frame includes weekends.) If you do not wish to begin the exam at this time, click the Sign Out button instead.
